

Children's Cognitive Research Lab Application

Thank you for your interest in the Children's Cognitive Research Lab (www.uc.edu/ccrl/). We are looking for excellent and engaged students who hold a GPA of 3.5 or above in psychology. Students from outside of psychology are encouraged to apply as well, in which case a different GPA cut-off might apply. Please fill out the information below, save the document as LastName_FirstName_CCRL, and send it to Heidi.kloos@uc.edu, along with your CV or Resume.

Upon a successful interview, you will be asked to obtain a current background check, up-to-date immunizations, a current physical, and a letter of reference. Because some of our work is off campus, you may need to have reliable transportation.

Several lab opportunities are available throughout the year, and we are always open to custom-design the opportunity that works best for you. Please mark what you are interested in.
